CLIENT	LOCATION	PROJECT	DESCRIPTION
Votorantim	Rio Branco do Sul – PR	Kilns	Executive Project: Integration engineering and project detailing for a plant with 5.000 tpd capacity. Product: CEMENT
Votorantim	Primavera - PA	Kilns	Executive Project: Integration engineering and project detailing for a plant with 3.000 tpd capacity. Product: CEMENT
Votorantim	Vidal Ramos - SC	Kilns	Executive Project: Integration engineering and project detailing for a plant with 3.000 tpd capacity. Product: CEMENT
Votorantim	Edealina - GO	Kilns	Executive Project: Integration engineering and project detailing for a plant with 5.000 tpd capacity. Product: CEMENT
InterCement	Pedro Leopoldo - MG	Kilns	Basic Project: Engineering services for a system to dose gypsum and fluorine in the mineralized clinker tower. Product: GYPSUM and FLUORINE
CCPI	Cocalzinho - GO	Grinding	Conceptual Engineering: Engineering services and drawings to convert a raw grinding in a cement grinding. Product: CEMENT
Cimento Ribeirão Grande	Itapevi - SP	Grinding	Basic Project: Engineering services and drawings for a slag grinding and drying system. Product: SLAG
Votorantim	Porto Velho - RO	Grinding	Basic and Executive Project: Engineering services and drawings for implementing a cement grinding. Product: CEMENT
Cimento UAU	Pains - MG	Grinding	Executive Project: Engineering services and drawings to convert a raw meal in a cement grinding. Product: CEMENT and RAW MEAL
Cimento Bravo	São Luís - MA	Grinding	Consulting: Critical analysis of the mechanical project of a cement grinding, including comments and improvement suggestions. Product: CEMENT
Queiroz Galvão	Pecém - CE	Grinding	Conceptual engineering and capital expenditure spreadsheets (CAPEX): Engineering services and drawings for a new cement grinding with 500.000 tpy capacity, including budget estimation. Product: CEMENT

CLIENT	LOCATION	PROJECT	DESCRIPTION
InterCement	Bodoquena - MS	Grinding	Basic Project: Engineering services and drawings for a coke grinding. Product: COKE
InterCement	Apiaí - SP	Grinding	Basic Project: Engineering services and drawings for a coke grinding. Product: COKE
Cementos Yguazú	EXTERIOR - Paraguai - Assunção	Grinding	Executive Project: Engineering services and drawings for implementing a new cement grinding and a new dispatch unit. Product: CEMENT
Votorantim	Barcarena – PA	Grinding	Basic and Executive Project: Engineering services and drawings for implementing a new cement grinding and a new dispatch unit. Product: CEMENT
Loma Negra C.I.A.S.A.	EXTERIOR - Argentina – Catamarca	Grinding	Executive Project: Engineering services and drawings for transferring a petcoke mill (from Apiaí to Catamarca) to be used in the clinker kiln. Product: PETCOKE
Votorantim	Salvador - BA / Aratú	Grinding	Basic and Executive Project: Engineering services and drawings for implementing a new cement grinding and a new dispatch unit. Product: CEMENT
Votorantim	Pecém – CE	Grinding	Basic and Executive Project: Engineering services and drawings for implementing a new cement grinding and a new dispatch unit. Product: CEMENT
Cimento UAU	Pains – MG	Grinding	Executive project: Engineering services and drawings for implementing the following equipment: mill, silo (5000 ton) and bag-filling machine. Product: CEMENT
Cimento Bravo	São Luís – MA	Grinding	Basic Project: Engineering services and drawings for expanding a grinding unit, including new storage areas and the installation of a road-rail terminal. Product: CLINKER And CEMENT
Cimento Tupi	Volta Redonda - RJ	Grinding	Conceptual Project: Engineering services and drawings for a new slag drying and grinding plant. Product: SLAG
InterCement	Ijaci - MG	Crushing	Basic Project: Engineering services and drawings for a new limestone crushing and transportation system. Product: LIMESTONE

CLIENT	LOCATION	PROJECT	DESCRIPTION
Ciplan	Brasília - DF	Crushing	Consulting and Executive Project: Revision of the crushing plant basic project and supply of detailed drawings for two belt conveyors. Product: LIMESTONE
Votorantim	Barcarena - PA	Drying	Executive Project: Engineering services for implementing a slag drying unit. Product: SLAG
Brennand Cimentos	Recife – PE	Management	Management: Elaboration of bidding notices and technical equalization for metallic structures supply and assembly. Product: CEMENT
CBC	Salvador - BA	Feasibility Study	Consulting: Critical analysis of the conceptual project of a new cement plant, including improvements suggestions and evaluation of the estimated budget. Product: CEMENT
Vetorial	Belo Horizonte - MG	Feasibility Study	Conceptual engineering and capital expenditure spreadsheets (CAPEX): Engineering services and drawings for new cement production plant with 1.000 tpd capacity, including budget estimation. Product: CEMENT
CNEC	Belo Monte - PA	Feasibility Study	Consulting: Critical analysis of a project to implement cement terminals in Belo Monte. Product: CEMENT
CSN	Arcos - MG	Feasibility Study	Conceptual engineering and capital expenditure spreadsheets (CAPEX): Engineering services and drawings for increasing clinker production, implementing a new limestone crushing and a new cement grinding. Product: CLINKER, LIMESTONE and CEMENT
T.M.C.	São Paulo - SP	Feasibility Study	Conceptual engineering and capital expenditure spreadsheets (CAPEX): Engineering services and drawings for two new cement plants with 500 and 1500 tpd capacity. Product: CEMENT
Cementos Yguazú	EXTERIOR - Paraguai - Assunção	Feasibility Study	Conceptual engineering and capital expenditure spreadsheets (CAPEX): Engineering services and drawings for new clinker production plant with 1.000 tpd capacity, including budget estimation. Product: CLINKER
Brennand Cimentos	Pitimbu – PB	Feasibility Study	Conceptual Engineering and Capital Expenditure Spreadsheet (CAPEX): Engineering services and drawings for a new cement plant implementation, including: CAPEX, layout alternatives, storage sheds, silos, among others. Product: CEMENT
CSN	Arcos - MG	Feasibility Study	Consulting: Critical analysis of a grinding mechanical project, including improvements suggestions. Product: CEMENT
